

## HEALTHCARE REGULATORY MATTERS

Given that healthcare is such a heavily regulated industry, a fundamental distinction of our healthcare attorneys is their knowledge and expertise in the unique laws and regulations that pertain to the delivery of healthcare. Our capabilities in this include:

- Licensure and Certificate of Need proceedings before the Oklahoma Department of Health
- CHOW and 855 filings with Medicare
- Provider enrollment with the Oklahoma Health Care Authority, our state Medicaid entity
- Responding to governmental investigations and corrective actions including CMS 2567s
- Assistance with issues pertaining to Oklahoma public trust hospitals such as Oklahoma Open Records Act and Oklahoma Open Meetings Act compliance
- Advice on patient care issues related to end of life care, informed consent, patients rights, confidentiality and issues unique to reproductive health and infertility
- Medicare/Medicaid reimbursement compliance including compliance with Stark Law, antikickback, Medicare prohibition against reassignment laws, the False Claims Act, the Civil Monetary Penalty Act and healthcare fraud and abuse statutes
- Experience with Medicare and Medicaid audits including RAC audits
- Experience with mental health compliance such as guidance on voluntary detention rules, unique patient consent issues and seclusion and restraint issues
- Experience with HIPAA, EMTALA, Institutional Review Board laws, telemedicine, Healthcare Quality Improvement Act, National Practitioner
