

LITIGATION AND ALTERNATIVE DISPUTE RESOLUTION

Conner & Winters' healthcare litigation group utilizes the vast experience of a number of lawyers involved in the healthcare field, their skills, experiences and resources in dealing with the disputes that arise of healthcare clients. The healthcare litigation group protects the interest of healthcare clients involved in administrative matters, commercial litigation, civil disputes, civil and criminal investigations and proceedings, and alternative dispute resolution actions. The healthcare litigation group works in concert with the healthcare group to protect the interest of healthcare clients involved in litigation. Our healthcare litigation group provides comprehensive representation to hospitals, healthcare professionals, health systems, physician and physician practice groups, medical clinics, long-term care providers, pharmacies, and managed care organizations. Health law services include the following:

- Appear before government agencies on compliance issues regarding healthcare clients from representing individuals to large healthcare systems
- Assist healthcare providers in responding to subpoenas from courts or administrative agencies
- Contract matters, including but not limited to vendor disputes, recruitment agreements, employment agreements
- Defend payors in bad faith insurance claims
- Defending all healthcare providers from civil and criminal litigation of all types
- Defense of healthcare professionals, including physicians, hospitals, nurses, long term care facility owners, contractors and providers, and other healthcare professionals in litigation involving negligence, deceptive trade practices, wrongful death, violation of resident rights through the processes of mediation, settlement and trial
