

## ENVIRONMENTAL ASPECTS OF TRANSACTIONS

Environmental issues routinely arise in business and financial transactions. Our environmental team provides comprehensive guidance in areas such as due diligence and audits for mergers and acquisitions, risk identification and mitigation in business, lending, and real property transactions. After closing, we continue to assist our clients in the development of environmental management systems and day-to-day compliance issues.

Our [mergers and acquisitions](#), [banking and finance](#), and [real estate](#) practice area page include additional information.
