

DIVERSITY INITIATIVES

At Conner & Winters, we understand that our differences make us unique and that they help form a work environment based on independent thought and creativity. We believe that outstanding lawyers are not determined by race, nationality, gender, sexual orientation, or religion. Our attorneys and staff use varying backgrounds, experiences, and perspectives as unique assets in providing clients the best in legal services. By continuing to recruit, retain, develop and promote a diverse group of lawyers and staff, we serve the interests of our clients, our firm and our communities.
