Adeh Vartanian is a patent agent in the Intellectual Property Practice Group in the firm's Los Angeles office. Adeh has extensive experience drafting and prosecuting patent applications, as well as performing freedom to operate analyses and patentability assessments for a wide range of technologies.

Adeh's background in biology informs his work in intellectual property. He earned both a B.S. in Human Biology and an M.S. in Biology from the University of California, San Diego. His master's thesis explored the role of sharp wave ripple oscillations in decision making during complex spatial working memory tasks. Adeh has also performed research on non-alcoholic fatty liver disease.

Adeh is currently pursuing his J.D. at Loyola Law School, further enhancing his expertise at the intersection of science and law.
