

Dialogue With the Regulators: Navigating Blockchain & FinTech

11.05.2019

Location:

Times Square, New York

Time:

3:30 p.m.- 8:30 p.m.

Sheppard Mullin Participant:

Richard Friedman, Partner New York

About:

Dialogue with the Regulators: Navigating Blockchain & Fintech unlocks the critical partnerships between the financial services industry, solution providers, key industry leaders, and regulators leveraging technology to drive innovation and regulatory change.

At the forefront of revolutionary changes in fintech and regtech is blockchain technology. Worldwide spending on blockchain solutions alone is expected to grow from \$1.5 billion in 2018 to an estimated \$11.7 billion by 2022 with the financial sector accounting for over 60 percent of the market value of blockchain worldwide (Statista). As overall fintech solutions evolve, the regulatory landscape will face enormous challenges in keeping up with technology disruption.

The forum brings together the fintech ecosystem for an intimate and productive dialogue focusing on collaborative and innovative approaches towards building a robust financial and regulatory compliant environment. Click for more information.

Panel Discussions:

Fintech Impact on US & Global Payments Systems

- Digital payment vulnerabilities- transaction laundering, buyer/seller collusion, synthetic identity fraud, terrorist financing, and cybersecurity risks
- Legal and compliance considerations-state and federal consumer protection laws, anti-money laundering laws, state money transmitter licensing laws

Blockchain & Digital Assets

- Top concerns for compliance leaders in financial institutions on regtech adoption- issuance, investor onboarding, KYC/AML, custody issues, secondary trading
- Digital securities offerings (DSOs) and cryptocurrency governance challenges

Dialogue with the Regulators: Innovation & Regulation

- Top concerns for compliance leaders in financial institutions on regtech adoption- issuance, investor onboarding, KYC/AML, custody issues, secondary trading
- Digital securities offerings (DSOs) and cryptocurrency governance challenges
