About:

This program provides an in-depth analysis of current VC market conditions and the changing legal environment, and is geared toward the experienced venture capital practitioner. Our expert faculty of lawyers, venture capitalists and business executives will analyze the legal and business issues relevant to navigating today's evolving venture capital world. We will also address the latest financing trends, current deal terms, exit strategies, and legal and practical implications of the new securities laws on the venture capital market.

What You Will Learn

- Shine a spotlight on critical current issues including CFIUS, privacy and data regulation, and #MeToo for VCs and portfolio companies
- Learn about recent trends in M&A, IPOs, diversity challenges, and new types of funds such as Emerging Managers + Social Impact funds
- Address new and evolving issues in digital asset offerings, crowdfunding and Reg A, and private offerings reform
- Analyze the growing move toward VC reps & warranties insurance
