The COVID-19 pandemic, and the associated shift to working from home on a remote or hybrid basis, has presented a setback for gender equality in the workplace across the globe. In many ways, the pandemic has reversed progress and has exposed the reality of pre-existing workplace disparities.

Sheppard Mullin's Women in Healthcare Leadership Collaborative is pleased to host a virtual conversation with Bird & Bird to discuss these important issues.

Topics will include:

- Gender equity issues in Europe, the US and Asia-Pacific
- Challenges around collecting and using diversity data
- The impact of the pandemic on gender equity
- Practical tips for leaders to promote gender equity in hybrid/remote teams

This event will include a presentation followed by a discussion, where audience participation is highly encouraged.

Presented By:
