

Energy Storage North America 2023 Conference

February 14 - 16

Energy Storage North America and Intersolar North America will return to Long Beach, CA from February 14-16, connecting installers, developers, utilities, technology providers, policy makers, and key stakeholders from around the world to advance the clean energy transition.

1:15 PM, February 14 - Clean Energy Workforce Development

Supply chain challenges and federal funding are reinforcing the value of reinvest in America's clean energy workforce. This panel brings together perspectives from labor, industry, and leading labor economists to discuss the transition of the clean energy workforce, and key steps needed to realize this transition, including community engagement, training programs, and partnerships.

Speakers:

- Bernice Diaz, Sheppard Mullin
- Gia Vacin, Governor's Office of Business and Economic Development
- Tim Aldinger, Foundation for California Community Colleges
- Joe Goodenbery, Strategen

2:30 PM, February 14 - IRA Domestic Content

The IRA provides an increased credit rate for PTC and ITC projects that satisfy domestic content requirements, representing millions of dollars in value to project developers and investors. This session will review the domestic requirements and highlight the experience of manufacturers who have committed to bringing production back into the US along with developers who are domestically sourcing inputs.

Speakers:

- Ariel Debin, Sheppard Mullin
- Ryan Roberts, Sheppard Mullin
- Gigio Sakota, Avantus
- Matt Walz, Invinity Energy Systems
- Lindsay Cherry, Q Cells
