This year's Spring Conference focuses on four major procurement "watchword" themes that will serve as driving forces for the acquisition system and government operations over the course of the year: Market Continuity, Cybersecurity, Supply Chain Security, and Sustainability. Government and industry leaders will share how these watchwords play a major role in shaping procurement policies and programs. We have invited a wide range of agencies to participate in this year's Spring Training Conference, including DoD, GSA, VA, OMB, CISA, EPA, NASA, FDA, DHA, and DLA.
