

Training AI Models – Just Because It's Your Data Doesn't Mean You Can Use It

09.06.2023 | 2:00-3:00 PM EST

Event Sponsor: myLawCLE

This webinar will cover an overview of litigations and enforcements involving AI tools, issues with training AI models, including infringement, fair use, license restrictions and compliance and rights to use data. It will also cover legal issues with AI inputs/prompts and outputs, including IP protection, infringement, ownership and Terms of Use issues. It will also cover some regulatory issues with AI including FTC guidance and enforcements relating to bias, transparency, truthfulness, and remedies such as algorithmic disgorgement. Lastly, it will cover thoughts on developing policies on employee use of AI to mitigate legal risk when using AI.

Key topics to be discussed:

- Litigations and enforcements involving AI tools
- Issues with training AI models
 - Infringement
 - Fair use
 - License restrictions
 - Compliance and rights to use data
- Legal issues with AI inputs/prompts and outputs
 - IP protection
 - Infringement
 - Ownership
 - Terms of Use issues
- Regulatory issues with AI
 - FTC guidance and enforcements
 - Bias, transparency, truthfulness, and remedies such as algorithmic disgorgement
- Developing policies on employee use of AI to mitigate legal risk when using AI
