

Controlled Unclassified Information (CUI) Essentials

Webinar

10.22.2025 | 2:00-3:00 PM EDT

Event Sponsor: Public Contracting Institute

This course provides introductory-level instruction on recognizing, marking, and appropriately handling CUI. Participants will learn how to identify CUI and implement proper protocols for sharing, destroying, decontrolling, aggregating, and disseminating information. The course will also discuss unique considerations when handling CUI, including interactions with various types of entities and steps to take in the face of a potential incident. Further, the course will review essential contractual provisions that govern the management and protection of CUI.

Learning objectives:

- Understand how to identify CUI
- Learn how to mark, handle, share, destroy, decontrol, aggregate, and disseminate CUI
- Consider implications for foreign, state, local, tribal, or private sector entities
- Learn how to handle misuse of CUI, including incident procedures
- Identify relevant contractual provisions

Speakers:

- Lillia Damalouji, Associate, Sheppard Mullin
- Sidney Howe, Associate, Sheppard Mullin
