***SPACE IS LIMITED**

Sheppard Mullin and Huron Consulting Group invite you to a private, executive-level breakfast roundtable during the 2026 J.P. Morgan Healthcare Conference. This session will bring together healthcare leaders, legal advisors, policy experts and operators for a deep dive into the One Big Beautiful Bill (OB BB) Act and its practical implications for providers, plans and investors in 2026.

We will unpack the core elements of the OB BB Act—including Medicaid financing changes, revised program integrity rules, state-directed payment authorities, workforce and staffing reforms and federal expectations around HCBS transformation—and examine how these provisions will shape strategy and operations across the industry. The discussion will also preview other key federal and state legislative developments expected in 2026, such as 340B modernization proposals, emerging 1115 waiver models and evolving CMS approaches to rural health, value-based arrangements, and health equity requirements.

This roundtable is designed for candid, practical dialogue. Attendees will have the opportunity to share perspectives on regulatory readiness, operational impacts, payor-provider alignment and strategic planning in light of a rapidly shifting policy landscape. Complimentary breakfast will be served.

Who Should Attend

- C-suite executives at hospitals, health systems and integrated delivery networks
- General Counsel, Chief Legal Officers and senior in-house policy leaders
- Executives overseeing Medicaid, managed care, value-based care or government programs

- Health plan, investor and private equity executives focused on provider partnerships and policy risk
- Strategy, policy, reimbursement and population health executives involved in system-level planning

Attendance is limited to ensure a highly interactive discussion among market-leading executives.

Speakers:

- Adam Herbst, Partner, Sheppard Mullin
- Donnell Folta, Principal, Huron
- Paul Johnson, Managing Director, Huron
