

CyberHive - Internet of Things Forum

10.02.2013

3:15 p.m. - 9:00 p.m.

SDG&E Innovation Center
4760 Clairemont Mesa Boulevard
San Diego, CA 92117

Sheppard Mullin's Justine Phillips is moderating panel on privacy issues related to the Internet of Things. The Internet of Things (IoT) is the term for the phenomenon where people and things (physical devices such as vehicles, commercial and industrial equipment, medical devices, remote sensors, etc.) are connected to networks that are linked to the internet and communicating vast amounts of valuable data. While the idea is not new, the recent proliferation creates a sense of urgency to better understand, manage and consume the resulting data.
