

Sheppard Mullin Named to Forbes' List of America's Top Corporate Law Firms

10.03.2019

Sheppard Mullin was named to Forbes' inaugural list of America's Top Corporate Law Firms for 2019 and one of the most recommended firms in the country for cybersecurity and data privacy. Sheppard Mullin was one of only six firms named in the cybersecurity and data privacy category among 243 firms.

Firms were selected through an online survey conducted by market research company Statista that included responses from 2,500 law firm and in-house attorneys recommending firms in up to 17 areas of law. The firms that received the most recommendations were included on the list, and those with a higher number of recommendations than average in a specific practice were given the "most recommended for" designation.
