

Sheppard Mullin Representing ATLAS Space Operations in Sale to York Space Systems

07.23.2025

Sheppard Mullin is advising ATLAS Space Operations, a pioneer in Ground Software as a Service for satellite communications, in its agreement to be acquired by defense technology company, York Space Systems.

ATLAS will play a key role in York's Golden Dome architecture, a next-generation defense solution that unifies spacecraft, software, and ground operations to deliver full-spectrum capabilities across contested environments. ATLAS will continue to operate independently under its existing brand, serving its diverse portfolio of customers across the space industry.

The Sheppard Mullin deal team representing ATLAS is led by partners Frank Bacelli and Brian Weimer and associate Jeff Bowling, with additional support provided by partners Carlo Van den Bosch, Claudia Hinsch, Drew Svor, Olivier Theard, Reid Whitten, Ryan Roberts, Shawn Fabian and Snehal Desai and associates Betsy Luxenberg, Daniel Alvarado, Patrick Diaz, Lauren Ash and Umar Sattar.
