

Sheppard Mullin Represented CūtisCare on Strategic Sale to RestorixHealth

10.31.2025

Sheppard Mullin represented C tisCare LLC in its sale to RestorixHealth, a transaction that merges two leading providers of wound care management and hyperbaric therapy solutions. For over 25 years, C tisCare has worked with hospitals, academic medical centers, hospital systems and physicians to design customized outpatient wound care and hyperbaric oxygen (HBOT) solutions. The firm advised the company through complex restructuring and carve-out matters, ensuring that RegenQuest, its office-based division, remained an independent entity following the transaction.

By combining with C tisCare's hospitals, academic medical centers and hospital systems – including top-tier partners like UCLA Medical Center and UC San Diego Health – RestorixHealth expands its footprint to nearly 300 partners across 41 states, offering more comprehensive management solutions for partners and supports further growth opportunities.

The Sheppard Mullin deal team was led by partner David Sands, special counsel Jeff Kaye and associate Jay Lee. Invaluable assistance was provided by Michael Chan, Dmitriy Chelnitsky, Brian Egan, Sally Elshihabi, Shawn Fabian, Brandon Faus, Brian Fong, Keith Gercken, Erin Hausladen, Justin Hepworth, Julia Kadish, Lynsey Mitchel, Iman Naieem, Megan Ricker, Fernando Samayoa, Umar Sattar, Coby Shirazi, Olivier Theard, John Tishler, Brett Uslaner, Carlo Van den Bosch, Michael Weissnar, Pamela Westhoff, Ed Xia and Aram Zadeh.
