Join Vorys for a complimentary webinar designed specifically for tax professionals in the oil and gas industry

Developing Effective Tax-Based Strategies for Ohio Oil and Gas Production

- Introduction to Ohio state and local taxes
 - Real and public utility personal property taxes, sales and use tax, commercial activity tax, MCF tax, public utility excise tax, state and local income taxes and school district income taxes.
- A discussion of hot State and local tax issues
 - Are you a public utility?
 - What are the key potential sales and use tax exemptions and exceptions?
 - How do you situs gross receipts for CAT purposes?
- Learn about effective strategies for reducing your tax burden
 - Property tax abatements, sales and use tax planning, infrastructure-based incentives such as tax increment financing, other State and local incentives and exempt facilities.
