Please join us for a webinar to discuss the OSHA COVID-19 Emergency Temporary Standard (ETS), which requires certain private-sector companies to regularly test non-vaccinated employees. The ETS states that all businesses and organizations with 100 or more employees must test their employees for COVID-19 on a weekly basis, unless an employee is fully vaccinated. It also requires those same employers to provide paid time off for their employees to get vaccinated or to recover from post-vaccination illness. In this complimentary webinar, Vorys labor and employment attorneys from our COVID-19 task force will discuss how the ETS will impact your business and the legal challenges you may face with the new requirements.
