**EVENT** | 7.21.2026

Jake Bartlett and Nat Morse, attorneys in the Vorys environmental group, will present a webinar titled "Closing with Confidence: Environmental Legal and Technical Due Diligence That Protects Value" on July 21 from 2:00 to 3:00 p.m. EST.

The webinar will focus on environmental, legal and technical due diligence strategies that help protect value and support confident transactions. It will help business professionals to make the most of their diligence window by exploring topics such as scoping investigations to match transaction goals, interpreting findings before they become deal-breakers and structuring agreements that protect value long after closing. Attendees will learn how to move efficiently through the full assessment process from permitting and regulatory analysis to specialized reviews covering asbestos, vapor intrusion, PFAS, ecological evaluations and regulatory compliance going beyond standard Phase I and Phase II site assessments.
