**EVENT** | 7.8.2025

Chaz Billington, a partner in the Vorys Cleveland office and a member of the labor and employment group, will be presenting in a webinar on July 8, 2025 at 12pm E.T. focused on HR compliance and an agentic AI tool called AIV Labor.

The webinar will offer an exclusive look at AIV Labor—a patent-pending, agentic AI product built specifically to respond to labor and employment questions with speed, accuracy and clarity.

Unlike general-purpose AI tools, AIV Labor searches in real time across nearly 500 curated sources selected by L&E attorneys. The result? Fast, reliable and tailored information for your compliance and policy questions.

During this session, attendees will:

- Learn how AIV Labor addresses critical challenges in employment compliance
- Get an inside look at the trusted, attorney-curated legal sources and secure infrastructure behind the platform
- Understand what sets AIV Labor apart from other AI tools
- Watch a walkthrough of real-world examples that demonstrate how AIV Labor responds to complex employment questions
