NEWS | 1.30.2017

On January 20, 2017, Duke Energy Ohio, Inc. filed an amended application for certificate of environmental compatibility and public need for the C314V Central Corridor Pipeline Extension Project with the Power Siting Board. Duke Energy Ohio adjusted its proposed preferred route in four portions and one portion of the alternate route. Duke claims that these adjustments are to address construction and disruption issues in the Kenwood Country Club area, the Millington Court area, the Floral Avenue area, near Jewish Hospital and near Summit Park.
