

Vorys Launches Content Hub to Provide Insights on AI and Implications for In-House Counsel

NEWS | 3.13.2025

Vorys is pleased to announce the launch of *Applied AI*, a content hub designed to offer valuable insights and information on the implications of artificial intelligence (AI) in the legal field. As AI continues to revolutionize various industries, *Applied AI* will be a resource for in-house lawyers and legal professionals seeking to stay informed about the latest developments, trends, and best practices.

Applied AI will feature posts and articles authored by Vorys attorneys covering a wide range of practice areas including, intellectual property, employment, eControl, contracts and licensing, and more. In addition, Vorys attorneys will highlight state and federal laws related to AI and the impact that those might have on businesses and in-house legal teams.

About Vorys' Approach to AI: At Vorys, our foremost commitment is delivering unparalleled client service. Throughout our firm's history, we have consistently integrated technology to enhance our legal practice. With the rapid advancement of generative artificial intelligence (GenAI), this commitment resonates more strongly now than ever before. We are continually identifying and developing technologies that can improve firm operations and enhance our excellent client offerings. To learn more about how our firm utilizes AI, [click here](#).
