Vorys is pleased to announce that it has been named to Juristat's *Top Patent Firms 2025* list in all five of its metrics.

Juristat bases its rankings on U.S. Patent and Trade Office (USPTO) data, measuring a firm's patent filing capabilities based on speed, efficiency, relative difficulty and scale. According to Juristat, their metrics "show where a firm converts effort into results, where cycles are tight, and where teams win in harder settings."

Juristat names top firms for each of these metrics:

- Normalized Allowance Rate
- Normalized Time to Allowance
- Normalized OAs to Allowance
- Extensions
- Time to Response After OA

The Vorys IP team helps clients safeguard their innovations, manage their patent portfolios and defend their exclusive rights around the globe, helping clients obtain patents in alignment with their business goals, as well as monetizing those patent assets through licensing and sales, and helping clients defend their rights at the USPTO's Patent Trial and Appeal Board (PTAB), federal courts and the International Trade Commission when infringed by third parties.
