NEWS | 6.3.2026

Vorys represented Columbus-based investment firm Heartland Growth Partners in its strategic partnership with ADF Engineering. The transaction represents a major new investment in one of the region's leading industrial engineering platforms. The partnership will expand ADF's ability to support clients with complex facility and process needs. ADF will maintain its existing brand, its Miamisburg headquarters, and its current executive leadership team.

About Vorys: Vorys was established in 1909 and currently has nearly 375 attorneys in 10 offices in Ohio, Washington, D.C., Texas, Pennsylvania, California, London and Berlin. Vorys currently ranks as one of the 200 largest law firms in the United States according to *American Lawyer* magazine.

About Heartland Growth Partners: Heartland Growth Partners is a middle market private equity firm backed by owner-operators of industrial companies. Based in Columbus, Ohio, Heartland provides portfolio companies with strategic capital, practical operating perspective, technology insights, and access to a network of business owners and operators across industrial markets. The firm invests across industrial services, manufacturing, and related sectors.

About ADF Engineering LLC: Founded in 2003, ADF Engineering LLC delivers specialized process and facility engineering and design solutions for leading manufacturing companies across food, feed, consumer products, and other industrial sectors. ADF offers the full suite of engineering and design services required to execute complex projects, built on long-tenured teams that clients trust for practical solutions in complex, high-demand industrial environments.
