

Mergers & Acquisitions: Crucial Insights for Middle Market Growth

The Chamber of Commerce for Greater Philadelphia
3.22.21

Mergers and acquisitions (M&A) are one of the most important driving forces for the growth of the Middle Market. According to a report from the National Center for the Middle Market about 20% of middle market companies complete an acquisition and about 5% make a sale every year. Whether it's a transfer of ownership, partial or entire sale of a company, or complete merger with another entity, a time will come for a majority of middle market companies to negotiate some type of transaction that will affect growth.

Join Ryan Udell, Chair of the Corporate and Securities group, and a panel of business professionals for a workshop discussing mergers and acquisitions as a critical strategy for growth. The panel will provide insight on what to anticipate throughout the transaction process, and how professional advice and planning is crucial for M&A success.

Speakers:

- Michael Araten, President & CEO, Sterling Drive Ventures
- Chetan Bagga, CEO, Archetype Solutions
- Ryan Udell, Chair, Corporate and Securities Group, White and Williams LLP
