

Litigation Management for Risk Managers: Guidance for Risk Management Professionals to Avoid Depositions, Other Discovery and Trial Testimony in Civil Litigation

2015 Healthcare Summit
5.7.15

PRACTICE AREAS

Healthcare

This panel offers advice, perspectives and discussion on methods for healthcare and hospital risk managers to stay out of plaintiffs' counsel's cross-hairs in civil litigation. Panelists suggest best practices and documentation strategies that will aid defense attorneys when opposing a motion to compel a risk manager's deposition, or the production of a risk management file, and address how to navigate through a deposition or other testimony where it is unavoidable.
