The Boston office opened 2009 in the historic Downtown Crossing section of the city. It is in close proximity to local, state and federal courts and our familiarity with the local bench and bar, as well as government entities with whom our clients have frequent contact, allows us to better serve our clients.

The Boston team includes seasoned commercial and healthcare litigators with extensive trial experience, and lawyers with strong backgrounds in insurance coverage, bad faith, and extra-contractual matters. Others are knowledgeable in corporate and securities, finance, private equity, and venture capital. We also regularly handle environmental, intellectual property, patent, labor and employment, construction, professional liability, corporate governance, and toxic tort matters.
